## Using the Index

The indexed terms (in bold face) were selected as being particularly relevant to the ideas and practices of Gurdjieff's teaching. The page numbers following directly after the indexed term refer to pages on which the indexed term, or a variant, may be found, these being the main references for context and meaning.

Sub-terms, indented and arranged alphabetically under the indexed terms, allow the reader to locate aspects or sub-topics connected with the indexed term. The reader will find the sub-term, or a variant, on the pages referenced there.

Finally, "*and*" directs the reader to material of lesser importance while "*see also*" directs the reader to related indexed terms and/or sub-terms.
